PROFESSIONAL SUMMARY

Passionate Software Engineer with 1+ year of experience designing and deploying scalable full-stack React.js applications integrated with AWS cloud services. Proven growth from trainee to engineer with strong skills in cloud computing, web development, and agile methodologies.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, C#

Databases: SQL Server, MySQL, MongoDB

Frameworks and Libraries: React, ASP.NET Core Web API, Tailwind CSS

Cloud Technologies: AWS (Lambda, API Gateway, S3, EC2, IAM, RDS, DynamoDB), Azure (Deployment)

Tools: VS Code, Eclipse, Postman, Git, Visual Studio

WORK EXPERIENCE

Software Engineer (Promoted from Software Trainee) at Quadrant Technologies December 2024 – Present

One year+ of full-time experience developing and deploying full-stack web applications with React.js and AWS cloud services, demonstrating strong growth and technical skills.

- Developed scalable full-stack applications leveraging React.js frontend and AWS services including Lambda, API Gateway, DynamoDB, and S3.
- Designed and implemented secure authentication, authorization, and RESTful API integrations.
- Delivered critical features in Manager and Admin Dashboards including reporting, question generation, and user management.
- Collaborated in Agile teams following CI/CD pipelines for continuous deployment and testing.
- Completed intensive training on modern web technologies (React.js, ASP.NET Core) and cloud platforms (AWS, Azure).

PROJECTS

Assessment Module – Capstone Project March 2025

Developed full-stack assessment management system deployed on Azure Cloud.

- Implemented Authentication, Authorization, User Registration, and Forgot Password functionalities.
- Built Manager and Admin Dashboard components using React and ASP.NET Core Web API.
- Designed accurate and responsive User Dashboard for enhanced user experience.

MERN Authentication and Authorization August 2023

Created secure authentication system with role-based access control and JWT-based sessions.

- Developed user login and registration modules with secure credential handling.
- Integrated MongoDB as backend database with efficient data management.

EDUCATION

Computer Science Engineering Graduating April 2024

8.64 GPA

Vasireddy Venkatadri Institute of Technology, Namburu, Andhra Pradesh

Relevant coursework: Java, Data Structures, Database Management Systems

ACHIEVEMENTS

Leetcode 100-Day Problem Solving Streak 2023 – 2024

Consistently solved algorithmic challenges improving problem-solving skills.

LANGUAGES

Proficient: English, Telugu

Intermediate: Hindi
